Paulding Sheriff's Camera Connect Launched

(Paulding County, GA) Sheriff Gary Gulledge is pleased to announce a new initiative called Paulding Sheriff's Camera Connect. Paulding Sheriff's Camera Connect is a partnership between the citizens and businesses of Paulding County and the Paulding County Sheriff's Office. This partnership enables us to work collaboratively with our citizens and business owners to help combat crime.

Citizens and business owners can voluntarily sign up for Paulding Sheriff's Camera Connect and register their surveillance systems with the Sheriff's Office. This program allows citizens and business owners to register the locations of their camera systems so Detectives can call them if a crime occurs in their specific community or neighborhood.

This will help streamline the investigative process and help our Deputies:

- Potentially identify suspects more quickly
- Increase the chances of recovering stolen property before it is gone
- Keep our neighborhoods safer by creating a way for you to help in the fight against crime

Citizens must remember that we will not have access to anyone's camera system or their personal information. The only data that we will have access to is what a citizen or business owner provides to us.

Sheriff Gary Gulledge noted, "We are proud to launch Paulding Sheriff's Camera Connect in order to help stay up to date with all the technological advances in fighting crime. I want our citizens to know that we respect everyone's privacy and this program will be done on a voluntary basis and we will NOT have direct access to anyone's camera system."

If you have any questions about Paulding Sheriff's Camera Connect, please feel free to call us at (770) 443-3010. If you would like to register your system, go to <https://arcg.is/z84ir> and follow the prompts.
