Signature Required on Reverse Side

F-85

If this complaint is founded and the offender is issued a citation you may be subpoenaed to appear in court to testify as a witness for the prosecution.

By signing this complaint form I understand that I may be subpoenaed to testify in court and am willing to testify in court concerning any existing ordinance violations.

If the reported violation cannot be seen from a public area (such as a public roadway) and can only be seen from your property you should consider giving the Marshals permission to enter onto your property if you want the Marshals to investigate the violation you are reporting. Please be aware that if, while on your property or while on public property, the Marshals observe ordinance violation(s) on your property where you are the responsible party, your complaint against a third party cannot move forward until any existing ordinance violations on your property have been corrected. Since you are a witness in any case the Marshals may make against a third party concerning your complaint, the County's case would be weakened because your credibility as a witness would be lessened if you are testifying in court as to the ordinance violation(s) of a third party while you yourself have violation(s) on your own property.

By checking the box below marked "check here", I give employees of Paulding County permission to enter upon my property for the purpose of investigating ordinance violations. I also swear that I am the person who is signing this complaint.
